International Epilepsy Day

E-poster competition

2 February 2021

Rules and regulations

1. Participants are invited to submit their electronic poster for the E-poster competition. The submitted poster must be original and has not been presented elsewhere before. Each participant can only submit ONE poster for the competition.
2. Topic: **Epilepsy Today / Epilepsi Pada Zaman Sekarang**
3. Submission must be in PowerPoint form (max 1 page). Pictures and explanatory captions are encouraged. Language can be in either English or Bahasa Malaysia. Fonts should be large enough to be read.
4. Enclose name, email address, postal address and telephone number with poster submission to neurology.ukm@gmail.com **before 28 January 2021**.
5. All participants **MUST** register and attend the International Epilepsy Day to qualify for the competition.
6. Attractive prizes are to be won.

Ideas for E-poster

- ▶ How do you perceive epilepsy in the current era
- ▶ How do you think people around you perceive epilepsy in the current era
- ▶ Positive thinking in epilepsy
- ▶ Breaking stigma
- ▶ Living with epilepsy
- ▶ How do I see myself caring for people with epilepsy
- ▶ Changes I want to see in the world with regards to living with stigma and epilepsy

Of course these are only suggestions. Feel free to use your creativity and ideas as long as it is related to epilepsy! Remember, an explanatory caption may help strengthen the message on your poster.
